Input maps and how Pentacam maps are paired with ORBSCAN channels

ORBSCAN (training) Normal

Anterior elevation	Axial curvature	Pachymetry	Posterior elevation
			
mapped to	mapped to	mapped to	mapped to
			
Pentacam map Elv_A	**Pentacam map Sag_A**	**Pentacam map CT_A**	**Pentacam map Elv_P**

Pentacam (external) Keratoconus

Pentacam maps without an ORBSCAN counterpart are not used: Sag_P, EC_A, EC_P
